Plugin	Status	Description	Details
[com.glide.cs.pa]		reviewing chatbot.	al Analytics v1.0 on the ServiceNow Store.
Finance Service Management [com.snc.finance_service_automation]	Deprecated in February 2023 or last subscription term end.	Lets you launch Finance Service Automation and other service management applications. Activation of this plugin on production instances may require a separate license. Contact ServiceNow for details.	

Plugins planned for deprecation

This table lists the existing plugins that were planned for deprecation in a future release.

Plugin	Status	Description	Details
Microsoft AD Spoke for IntegrationHub [com.sn.ad.spoke]	Contract end date or March 2028 (whichever is earlier)		Install the Microsoft Active Directory v2 Spoke application from the ServiceNow

Plugin	Status	Description	Details
			store and review the migration guidance.
Social Q&A [com.sn_kb_social_qa]	Planned for deprecation in a future release.	Allows users to ask and respond to questions and vote on questions and answers. Social Q&A extends the Knowledge application and uses existing Knowledge functionality such as user criteria and multiple knowledge bases. By default, this plugin is active for existing customers upgrading to the Paris release. Beginning with Paris, the plugin is inactive for new customers.	
Marketing Service Management	Planned for deprecation	Lets you launch	

Plugin	Status	Description	Details
[com.snc.marketing_service_automation]	in February 2023 or last subscription term end.	Marketing Service Automation and other service management applications. Activation of this plugin on production instances may require a separate license. Contact ServiceNow for details.	
Vendor Performance Management [com.snc.vendor_performance], [com.snc.vendor_ticket]	Planned for deprecation in March 2024 or subscription term end.	Provides capabilities to measure, manage, and track vendor data and compare performance characteristics in unique graphical views.	Transition to Vendor Manager Workspace, included in ITSM Pro v2 subscription package.
Facilities Service Management [com.snc.facilities_service_automation]	Planned for deprecation in March 2025 or last subscription term end.	Manages facilities requests and enables users to report and track requests by their location. To view requests on a floor plan, the	Transition to Workplace Service Delivery.

Plugin	Status	Description	Details
		<p>Facilities Visualization Workbench (com.snc.facilities_service_automation.fvw) plugin is required.</p> <p>Integration files installed when the Facilities Visualization Workbench (com.snc.facilities_service_automation.fvw) plugin is also installed.</p> <p>Activation of this plugin on production instances may require a separate license. Contact ServiceNow for details.</p>	
<p>Facilities Visualization Workbench</p> <p>[com.snc.facilities_service_automation.fvw]</p>	<p>Planned for deprecation in March 2025 or subscription term end.</p>	<p>Enables the interactive floor plan functionality.</p>	<p>Transition to Workplace Service Delivery.</p>
<p>Trusted Security Circles</p>	<p>Planned for deprecation in September</p>		

Plugin	Status	Description	Details
[sn_ti], [sn_tis_a]	2023 or last subscription term end.		
Central Dispatch [com.snc.central_dispatch]	Planned for deprecation in the W release.	Provides both a list and calendar view of unassigned tasks.	Migrate to FSM Dispatcher Workspace [com.snc.uib fsm_dispatcher_workspace].
CMDB Agent Workspace [com.cmdb-workspace]	Planned for deprecation in the W release.	Agent Workspace for CMDB provides an easy-to-navigate interface that helps service agents access essential CMDB configuration items and drill down to related items such as changes, incidents, and timeline.	Install the store applications, CMDB Workspace and CMDB Page Templates.
CSM Classic Agent Workspace [com.snc.agent_workspace.csm]	Planned for deprecation in the W release.	Provides modern experience to customer support agents who were previously	Activate CSM configurable workspace application from the store.

Plugin	Status	Description	Details
		using what was referred to as the UI-16 solution.	
Customer Service Management for Orders [com.snc.csm.order]	Planned for deprecation in the W release.	The Customer Service Management for Orders feature adds support for orders and order line items to the Customer Service Management application.	Install the Order Management application.
ITSM Workspace [com.snc.agent_workspace.itsm] ITSM Workspace Landing pages [com.snc.agent_workspace.itsm.landing_page] ITSM Workspace Landing pages - Premium [com.snc.agent_workspace.itsm.landing_page_premium]	Planned for deprecation in the W release.	Enables you to efficiently oversee and resolve multiple incidents, problems, and change requests.	Transition to Service Operations Workspace.
ITSM Item Designer	Planned for deprecation	The Service Catalog item designer	Migrate to the Catalog Builder plugin.

Plugin	Status	Description	Details
[com.glideapp.servicecatalog.item_designer]	in the W release.	enables non-administrators to create, maintain, and publish catalog items. It uses a structured design and publishing process to ensure consistency of usage.	
Journey Accelerator v4.0.3 and below	Planned for deprecation in the W release.	Helps to create templates for plans and to-do tasks. Managers then use the templates to create and publish customized plans for key employee transitions. Managers, employees, and mentors can access the plans from the Employee Center (EC).	Migrate to the Journey Designer store application.
Mobile Studio [com.glide.sg-studio]	Planned for deprecation in the W release.	A tool inside of Dev Studio to configure mobile	Transition to Mobile App Builder.

Plugin	Status	Description	Details
		platform components.	
Operator Workspace [sn_em_ai_action,sn_em_ai_overview, sn-em-hidden-component, oi-scoped-app, sn-em-metric, sn_log_viewer, com.itom-noc-app,com.sn-em-metric-explorer]	Planned for deprecation in the W release.	Review the status of your services and view those at risk of not functioning optimally, enabling you to address those issues.	Migrate to Service Operations Workspace.
Product Model and Catalog Items Relationship [com.snc.product_catalog_relationship]	Planned for deprecation in the W release.	Enables self-service for customers to request services on products by creating relationships between product models and catalog items.	Install the 'Customer Service Case Types' plugin (com.snc.csm_case_types) and use the service definition feature.
